Design (Farsi un'idea) (Italian Edition) Alberto Bassi
Una lampada, una bicicletta, un computer, ma anche libri, siti web,
sistemi e servizi. All'origine delle "cose", fisiche o immateriali, che ogni giorno entrano nelle nostre vite,
esiste un processo globale di progettazione nel quale convergono ideazione, produzione, comunicazione,
utilizzo, consumo e riuso: è il design. Dopo averne descritto le caratteristiche e il campo d'azione, l'autore ci
guida nelle sue diverse declinazioni nel contesto internazionale, ed in quello italiano, dove il design ha
trovato un terreno fertile per esprimersi ai massimi livelli trasformando alcuni oggetti in icone del vivere
quotidiano. E domani? Quali sfide per il design del terzo millennio?
