## **German Railway Gun 28 cm K5(E) Leopold (Armor PhotoGallery) Jan Wijnstok**

Technical/historical background by the Dutch expert, illustrated with 31 b/w period photos and a selection of 224 detailed walk-around photographs highlighting in color all exterior and interior details of the World's only two preserved K5(E) railway guns: Ausf. C from the US Ordnance Museum, Aberdeen, USA and Ausf. D from the Musee du Mur de l'Atlantique, Audinghen, France. Includes the bonus giant (990 x 680 mm size) fold out sheet of super-detailed 1/72nd and 1/35th scale drawings of K5(E) Ausf. C & D in both firing and transport mode, and 1/10th scale drawings of K5's charges and projectiles. Twelfth volume in the Series of all-picture books showing AFVs preserved at museums and collections throughout the World, designed for the enthusiast and military modeler. Most complete reference book for super-detailing the Trumpeter, Dragon and Hasegawa kits. Reissued.

## REVIEWS

"an excellent single point of reference on this unusual weapon of WW2. With the modeler in mind, tucked into the pages of the book, are a set of good clear 1/35 scale plans."

Military Modeling

"Having looked over this title I am very impressed with it, it provides everything I as a modeler could wish for and should allow a model to be built as accurately as any modeler should wish. The display options the period photographs will put into your mind make this worthy of consideration, the reference images and scale plans make it a must. Having looked at the scale drawings and with it taking up a sizable chunk of floor space, I see no other option than to say; if you have the model get the reference, the finished model should make the cost of this reference book irrelevant, yes it is that good."

-Armorama
