There are many questions that fishermen ask themselves. Why do certain lures appeal to certain types of fish? How does the physical make-up of a type of fish affect its hunting strategy? Do fish learn to avoid lures and hooks? In *Through the Fish's Eye*, these questions, and much more are answered. A classic book written by some of the best names in the business, *Through the Fish's Eye* offers a new perspective on the art of fishing by breaking down the behavior of the fish and tying it into their biological make-up.

Skyhorse Publishing is proud to publish a broad range of books for fishermen. Our books for anglers include titles that focus on fly fishing, bait fishing, fly-casting, spin casting, deep sea fishing, and surf fishing. Our books offer both practical advice on tackle, techniques, knots, and more, as well as lyrical prose on fishing for bass, trout, salmon, crappie, baitfish, catfish, and more. While not every title we publish becomes a *New York Times* bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.
