Wings of Significance Donna Tartar Musselman

Does everything have a predestined purpose? Are we all intertwined, being shaped by things beyond our control? What if we feel we're already fulfilling our purpose, proud of the significant role we're playing—then, we're yanked out of that role into a completely different role? Is it up to us to adjust, assume that this reality is meant to be? Can our reaction to such drastic change keep us from fulfilling our true purpose? How do our reactions affect others' destinies? *Wings of Significance*, an exciting, patriotic fantasy laden with symbolism, brings an unlikely cast of characters together to explore the answers to these questions: a Cuban artist refugee, a hot-blooded American with a rifle at the ready, a family of eagles with only one surviving eaglet, and the boulder that has proudly served as throne to all the eagles that have reigned over the peaceful mountain valley. They all learn to spread their own wings of significance through acceptance and love. But first, each must deal with drastic change and challenges. In so doing, they learn that all of existence, in seeking its purpose, achieves its nobility. Everything seems to stand alone, but everything is forever entwined.
