Sharks Michael Bright

A comprehensive introduction to sharks and their biology and behavior.

Presenting the latest findings from international shark researchers, *Sharks* is an engaging introduction to these near-perfect predators. It describes the broad range of living sharks, explores their biology and behavior, and dispels the myths. Illustrated with shark images from around the world, the book reveals these creatures to be far more than just mindless killing machines.

Sharks shows how these animals have been the product of over 450 million years of evolution, during which time they have been honed to perfection as some of the sea's most sophisticated predators. More than 100 spectacular photographs and easy-to-follow diagrams highlight the book's worldwide coverage of shark species.

Topics include:

- Anatomy and locomotion
- Senses
- Behavior
- Lifestyle
- Hunting and diet
- Reproduction
- Habitat.

Sharks also describes the uneasy human-shark relationship and examines the serious conservation threats, in the forms of overfishing and marine pollution, experienced by wild shark populations all over the world.

This stunningly illustrated introduction shows that sharks are a vital group of animals worthy of admiration rather than fear. It is an essential reference for all libraries.

From reader reviews:

Deborah Green:

Why don't make it to be your habit? Right now, try to prepare your time to do the important act, like looking for your favorite publication and reading a publication. Beside you can solve your condition; you can add your knowledge by the e-book entitled Sharks. Try to make the book Sharks as your close friend. It means that it can to be your friend when you sense alone and beside those of course make you smarter than before. Yeah, it is very fortunated for yourself. The book makes you a lot more confidence because you can know every little thing by the book. So , we need to make new experience as well as knowledge with this book.

Betty Edmond:

The reason why? Because this Sharks is an unordinary book that the inside of the guide waiting for you to snap the idea but latter it will shock you with the secret the idea inside. Reading this book next to it was fantastic author who have write the book in such remarkable way makes the content within easier to understand, entertaining approach but still convey the meaning completely. So , it is good for you for not hesitating having this ever again or you going to regret it. This amazing book will give you a lot of gains than the other book have got such as help improving your proficiency and your critical thinking means. So , still want to delay having that book? If I ended up you I will go to the guide store hurriedly.

Christopher Hickman:

Playing with family in a park, coming to see the ocean world or hanging out with pals is thing that usually you may have done when you have spare time, then why you don't try issue that really opposite from that. 1 activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Sharks, you are able to enjoy both. It is very good combination right, you still desire to miss it? What kind of hang-out type is it? Oh can occur its mind hangout folks. What? Still don't understand it, oh come on its called reading friends.

Bruce Sandlin:

Sharks can be one of your starter books that are good idea. Many of us recommend that straight away because this book has good vocabulary that will increase your knowledge in vocabulary, easy to understand, bit entertaining but still delivering the information. The author giving his/her effort to place every word into pleasure arrangement in writing Sharks although doesn't forget the main position, giving the reader the hottest as well as based confirm resource details that maybe you can be one of it. This great information can certainly drawn you into new stage of crucial pondering.
