Encyclopedia of Twentieth-Century African History

With nearly two hundred and fifty individually signed entries, the *Encyclopedia of Twentieth-Century African History* explores the ways in which the peoples of Africa and their politics, states, societies, economies, environments, cultures and arts were transformed during the course of that Janus-faced century. Overseen by a diverse and distinguished international team of consultant editors, the *Encyclopedia* provides a thorough examination of the global and local forces that shaped the changes that the continent underwent.
