Specific Intermolecular Interactions of Nitrogenated and **Bioorganic Compounds**

Alexei K. Baev

Specific Intermolecular Interactions of Nitrogenated and Bioorganic Compounds Alexei K. Baev After his first book on the topic "Specific Intermolecular Interactions of Organic Compounds", Baev extends in this book the development of the thermodynamic theory of specific intermolecular interactions to a wider spectrum of nitrogenated and bioorganic compounds: amino alcohols, amino acids, peptides and urea derivatives. The fundamentals of an unconventional approach to the theory of H-bonding and specific interactions are formulated based on a concept of penta- coordinated carbon atoms. New types of hydrogen bonds and specific interactions are substantiated and on the basis of the developed methodology their energies are determined. The new concept of the extra stabilizing effect of isomeric methyl groups on the structure and stability of nitrogenated organic molecules and bioorganic compounds is introduced and the destabilization action on specific interactions is outlined.

From reader reviews:

Candy Dixon:

Do you have favorite book? If you have, what is your favorite's book? Book is very important thing for us to be aware of everything in the world. Each e-book has different aim or even goal; it means that e-book has different type. Some people experience enjoy to spend their time for you to read a book. These are reading whatever they consider because their hobby is definitely reading a book. Why not the person who don't like reading through a book? Sometime, particular person feel need book after they found difficult problem or even exercise. Well, probably you should have this Specific Intermolecular Interactions of Nitrogenated and Bioorganic Compounds.

Raymond Floyd:

The guide untitled Specific Intermolecular Interactions of Nitrogenated and Bioorganic Compounds is the publication that recommended to you you just read. You can see the quality of the reserve content that will be shown to a person. The language that article author use to explained their way of doing something is easily to understand. The author was did a lot of exploration when write the book, and so the information that they share for you is absolutely accurate. You also will get the e-book of Specific Intermolecular Interactions of Nitrogenated and Bioorganic Compounds from the publisher to make you more enjoy free time.

Raymond Murray:

A lot of people always spent their very own free time to vacation or go to the outside with them friends and family or their friend. Did you know? Many a lot of people spent they will free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity this is look different you can read the book. It is really fun to suit your needs. If you enjoy the book which you read you can spent all day every day to reading a publication. The book Specific Intermolecular Interactions of Nitrogenated and Bioorganic Compounds it is rather good to read. There are a lot of folks that recommended this book. These folks were enjoying reading this book. In the event you did not have enough space bringing this book you can buy typically the e-book. You can m0ore simply to read this book through your smart phone. The price is not very costly but this book has high quality.

Brad Sharpe:

Are you kind of stressful person, only have 10 as well as 15 minute in your time to upgrading your mind talent or thinking skill even analytical thinking? Then you are receiving problem with the book compared to can satisfy your short period of time to read it because all of this time you only find e-book that need more time to be study. Specific Intermolecular Interactions of Nitrogenated and Bioorganic Compounds can be your answer mainly because it can be read by an individual who have those short free time problems.
