Neural Networks & Expert Systems in Medicine & Healthcare (Artificial Intelligence)

Neural Networks & Expert Systems in Medicine & Healthcare (**Artificial Intelligence**)
Interest in medical expert systems, neural networks and other artificial intelligence techniques is on the increase as more healthcare providers realize their potential, and engineers and scientists are discovering that medicine and healthcare are very fertile areas for developing new, or applying existing, intelligent algorithms to real problems. Intelligent systems make it possible to capture expert medical knowledge and to discover new knowledge so as to improve in-patient monitoring, data analysis and decision making, and hence the quality of healthcare.

This book contains features which include: neural networks and expert systems techniques, as well as medical neural networks and expert systems. It should be of interest to managers, academics, engineers, scientists and medical practitioners involved in the funding, development and use of intelligent medical systems.

From reader reviews:

Wanda Stamper:

People live in this new morning of lifestyle always make an effort to and must have the extra time or they will get lot of stress from both way of life and work. So , if we ask do people have time, we will say absolutely without a doubt. People is human not only a robot. Then we ask again, what kind of activity do you have when the spare time coming to a person of course your answer can unlimited right. Then do you try this one, reading ebooks. It can be your alternative inside spending your spare time, the book you have read is usually Neural Networks & Expert Systems in Medicine & Healthcare (Artificial Intelligence).

Ann Tuttle:

Your reading sixth sense will not betray anyone, why because this Neural Networks & Expert Systems in Medicine & Healthcare (Artificial Intelligence) reserve written by well-known writer whose to say well how to make book which might be understand by anyone who all read the book. Written throughout good manner for you, still dripping wet every ideas and publishing skill only for eliminate your own hunger then you still doubt Neural Networks & Expert Systems in Medicine & Healthcare (Artificial Intelligence) as good book not merely by the cover but also through the content. This is one e-book that can break don't ascertain book by its cover, so do you still needing a different sixth sense to pick this particular!? Oh come on your looking at sixth sense already told you so why you have to listening to yet another sixth sense.

Lisa Buffington:

Are you kind of hectic person, only have 10 or perhaps 15 minute in your morning to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are experiencing problem with the book as compared to can satisfy your short space of time to read it because all this time you only find guide that need more time to be learn. Neural Networks & Expert Systems in Medicine & Healthcare (Artificial Intelligence) can be your answer as it can be read by you who have those short spare time problems.

Maria Smith:

Many people spending their time frame by playing outside using friends, fun activity having family or just watching TV all day long. You can have new activity to enjoy your whole day by examining a book. Ugh, ya think reading a book can actually hard because you have to accept the book everywhere? It ok you can have the e-book, having everywhere you want in your Smartphone. Like Neural Networks & Expert Systems in Medicine & Healthcare (Artificial Intelligence) which is finding the e-book version. So , try out this book? Let's view.
