Mark Clark, Cynthia Anfinson
BEGINNING ALGEBRA: CONNECTING CONCEPTS THROUGH APPLICATIONS shows students how to apply traditional mathematical skills in real-world contexts. The emphasis on skill building and applications engages students as they master algebraic concepts, problem solving, and communication skills. Students learn how to solve problems generated from realistic applications, instead of learning techniques without conceptual understanding. The authors have developed several key ideas to make concepts real and vivid for students. First, they emphasize strong algebra skills. These skills support the applications and enhance student comprehension. Second, the authors integrate applications, drawing on realistic data to show students why they need to know and how to apply math. The applications help students develop the skills needed to explain the meaning of answers in the context of the application. Third, the authors develop key concepts as students progress through the course. For example, the distributive property is introduced in real numbers, covered when students are learning how to multiply a polynomial by a constant, and finally when students learn how to multiply a polynomial by a monomial. These concepts are reinforced through applications in the text. Last, the authors' approach prepares students for intermediate algebra by including an introduction to material such as functions and interval notation as well as the last chapter that covers linear and quadratic modeling.

From reader reviews:

Nick Jansen:

What do you think about book? It is just for students since they're still students or the item for all people in the world, what the best subject for that? Merely you can be answered for that concern above. Every person has several personality and hobby for each other. Don't to be pushed someone or something that they don't need do that. You must know how great and also important the book Bundle: Beginning Algebra: Connecting Concepts Through Applications + Enhanced WebAssign Single-Term LOE Printed Access Card for Developmental Math. All type of book are you able to see on many sources. You can look for the internet options or other social media.

Patricia Welling:

What do you concerning book? It is not important along? Or just adding material when you really need something to explain what yours problem? How about your time? Or are you busy particular person? If you don't have spare time to complete others business, it is make one feel bored faster. And you have free time? What did you do? Everyone has many questions above. The doctor has to answer that question since just their can do this. It said that about guide. Book is familiar on every person. Yes, it is correct. Because start from on kindergarten until university need this kind of Bundle: Beginning Algebra: Connecting Concepts Through Applications + Enhanced WebAssign Single-Term LOE Printed Access Card for Developmental Math to read.

Brian Griffith:

Reading can called imagination hangout, why? Because when you find yourself reading a book mainly book entitled Bundle: Beginning Algebra: Connecting Concepts Through Applications + Enhanced WebAssign Single-Term LOE Printed Access Card for Developmental Math your head will drift away trough every dimension, wandering in most aspect that maybe unfamiliar for but surely will end up your mind friends. Imaging just about every word written in a book then become one form conclusion and explanation this maybe you never get before. The Bundle: Beginning Algebra: Connecting Concepts Through Applications + Enhanced WebAssign Single-Term LOE Printed Access Card for Developmental Math giving you yet another experience more than blown away your mind but also giving you useful details for your better life with this era. So now let us show you the relaxing pattern here is your body and mind will be pleased when you are finished reading it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Vincenza Nagel:

Do you like reading a reserve? Confuse to looking for your chosen book? Or your book had been rare? Why so many issue for the book? But any people feel that they enjoy regarding reading. Some people likes

studying, not only science book but in addition novel and Bundle: Beginning Algebra: Connecting Concepts Through Applications + Enhanced WebAssign Single-Term LOE Printed Access Card for Developmental Math or others sources were given knowledge for you. After you know how the truly great a book, you feel would like to read more and more. Science book was created for teacher or perhaps students especially. Those books are helping them to increase their knowledge. In other case, beside science e-book, any other book likes Bundle: Beginning Algebra: Connecting Concepts Through Applications + Enhanced WebAssign Single-Term LOE Printed Access Card for Developmental Math to make your spare time far more colorful. Many types of book like here.
