## **Vacationland: Tourism and Environment in the Colorado High Country (Weyerhaeuser Environmental Books) William Philpott**

Mention the Colorado high country today and vacation imagery springs immediately to mind: mountain scenery, camping, hiking, skiing, and world-renowned resorts like Aspen and Vail. But not so long ago, the high country was isolated and little visited. Vacationland tells the story of the region's dramatic transformation in the decades after World War II, when a loose coalition of tourist boosters fashioned alluring images of nature in the high country and a multitude of local, state, and federal actors built the infrastructure for high-volume tourism: ski mountains, stocked trout streams, motels, resort villages, and highway improvements that culminated in an entirely new corridor through the Rockies, Interstate 70.
