Echoes of a Haunting Clara M. Miller

Echoes of a Haunting recounts the true story of a real "haunted" house although the author prefers the word "disturbed". Do not expect the "usual" tale filled with blood running down the walls, demons jumping out of closets, heads pivoting while spewing pea soup or seances with levitating mediums. Instead, the horror that lived in the House in the Country began slowly and quietly. It gradually built in intensity until living there became unbearable.

The author's family, normal by any criteria, began to earn an unfair reputation as "devil worshipers" and "kooks". Despite efforts by various psychics and clergymen to ease the pressure, the house eventually won. When emotional and psychic shocks turned to physical threats, it became impossible to stay. The book attempts, in diary form, to trace the trajectory of the "haunting".
