Paediatrics at a Glance Lawrence Miall, Mary Rudolf, Dominic Smith

Paediatrics at a Glance provides an introduction to paediatrics and the problems encountered in child health as they present in primary, community and secondary care, from birth through to adolescence.

Each concise chapter diagrammatically summarises the main differential diagnoses for each presenting symptom, with accompanying text which covers important disorders and conditions as well as management information.

Updates and new features for this edition include:

- New chapters on 'Ethical Issues in Paediatrics' and 'Screening and Genetics'
- Fully updated content on autism and adolescent issues
- Most likely or serious diagnoses are indicated using a new quick reference icon

Paediatrics at a Glance is the ideal companion for anyone about to start a paediatric attachment or module and will appeal to medical students, junior doctors and GP trainees as well as nursing students and other health professionals.
