From metal type to the digital characters, Hermann Zapf has composed exceptional type designs for seventy years. He can be considered one of the most important calligraphers of all time, as well as a most notable book designer and typographer. His typefaces are among the most beautiful and familiar in the world. This book, a companion volume to the Typophile Chapbook About Alphabets (1960, updated 1970), describes Zapf's post-1970 type designs and provides new research on many of the earlier types.
