Cream: How Eric Clapton Took the World by Storm Dave Thompson

Dave Thompson, author of Virgin's acclaimed Red Hot Chili Peppers biography, takes a new and very detailed look at the creation of one of the world's most influential bands. After all the streets of London had been covered in 'Clapton Is God' tributes, the three top rock instrumentalists of their time, all stars in their own right, came together to form Cream. Cream went on to become the first band to break open the lucrative US market by dint of their live shows alone.

Updated to include details of their recent tour, this definitive account goes on the road with them then and now, day by relentlessly hedonistic day.
