A great book is a living organism. Months, years, or centuries may go into its gestation. When finally composed and written down, it can be said to be born, but only born. It then grows and develops through the interpretations of generation after generation of readers, critics, editors, and translators, each adding something, great or little, to its expanding magnitude. The life of the Bible, above all other books, is a life made up of countless lives, embodying their joys and agonies, their visions, their defeats and aspirations. Four thousand years cling about it. A full millennium of myths and legends passed into it; another millennium was consumed in the writing; bitter battles over canon and creed occupied a third; a fourth has seen the ever-continuing translations into modern tongues.

TWO - The Authors
