**An Illustrated Book of Bad Arguments** Ali Almossawi

**"A flawless compendium of flaws." —Alice Roberts, PhD, anatomist, writer, and presenter of *The Incredible Human Journey***

**The antidote to fuzzy thinking, with furry animals!**

Have you read (or stumbled into) one too many irrational online debates? Ali Almossawi certainly had, so he wrote *An Illustrated Book of Bad Arguments*! This handy guide is here to bring the internet age a much-needed dose of old-school logic (really old-school, *a la* Aristotle).

Here are cogent explanations of the ***straw man*** fallacy, the ***slippery slope*** argument, the ***ad hominem*** attack, and other common attempts at reasoning that actually fall short—plus a beautifully drawn menagerie of animals who (adorably) commit every logical *faux pas*. Rabbit thinks a strange light in the sky *must* be a UFO because no one can prove otherwise (***the appeal to ignorance***). And Lion doesn't believe that gas emissions harm the planet because, if that *were* true, he wouldn't like the result (the ***argument from consequences***).

Once you learn to recognize these abuses of reason, they start to crop up everywhere from congressional debate to YouTube comments—which makes this geek-chic book a *must* for anyone in the habit of holding opinions.
