Who Lives Here? Rain Forest Animals Deborah Hodge

The rain forest is home to amazing animals whose bodies are built for living among the tall trees and lush green plants. Toucans, emerald tree boas and jaguars all have special ways of finding food, staying safe and raising their young in a warm, wet tropical forest.

The Who Lives Here? series looks at animals in their natural habitats - rain forests, polar regions, deserts and wetlands - and explains how the body and habits of each animal are suited to the place it lives. Charming, realistic illustrations, playful language and intriguing facts make these books a perfect read for young children.
