Learning LaTeX

David F. Griffiths, Desmond J. Higham

Learning LaTeX David F. Griffiths, Desmond J. Higham

This short, well-written book covers the material essential for learning LATEX without any unnecessary detail. It discusses incisive examples that teach LATEX in a powerful yet abbreviated fashion, including the following crucial features: numerous examples of widely used mathematical expressions; complete documents illustrating the creation of articles, reports, and overhead projector slides; troubleshooting tips to help you pinpoint an error; details of how to set up a bibliography and an index; information about LATEX resources available on the Internet. LATEX has become an extremely popular typesetting system and is widely used throughout the sciences. Students may use it to typeset reports and theses (particularly graduate students in any mathematics or computer science discipline). The authors cover LATEX 2e, the latest standard version at the time of publication. An appendix discusses the differences between 2e and the older version, 2.09.

From reader reviews:

Wilhelmina Kane:

Book is to be different for each grade. Book for children till adult are different content. To be sure that book is very important usually. The book Learning LaTeX ended up being making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The publication Learning LaTeX is not only giving you considerably more new information but also to become your friend when you sense bored. You can spend your own spend time to read your reserve. Try to make relationship while using book Learning LaTeX. You never really feel lose out for everything in case you read some books.

Lila Smith:

Here thing why this specific Learning LaTeX are different and trusted to be yours. First of all looking at a book is good nonetheless it depends in the content of computer which is the content is as scrumptious as food or not. Learning LaTeX giving you information deeper since different ways, you can find any book out there but there is no e-book that similar with Learning LaTeX. It gives you thrill reading through journey, its open up your eyes about the thing in which happened in the world which is might be can be happened around you. You can actually bring everywhere like in area, café, or even in your technique home by train. In case you are having difficulties in bringing the published book maybe the form of Learning LaTeX in e-book can be your alternative.

Anthony Rodriguez:

Typically the book Learning LaTeX will bring you to the new experience of reading a book. The author style to describe the idea is very unique. Should you try to find new book to read, this book very appropriate to you. The book Learning LaTeX is much recommended to you to see. You can also get the e-book from your official web site, so you can more easily to read the book.

Sylvia Kirby:

Spent a free time and energy to be fun activity to do! A lot of people spent their down time with their family, or all their friends. Usually they undertaking activity like watching television, gonna beach, or picnic in the park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your own free time/ holiday? Might be reading a book may be option to fill your free of charge time/ holiday. The first thing you ask may be what kinds of reserve that you should read. If you want to test look for book, may be the e-book untitled Learning LaTeX can be great book to read. May be it might be best activity to you.
