## Recent Progress in Inequalities (Mathematics and Its Applications)

This volume is dedicated to the late Professor Dragoslav S. Mitrinovic(1908-1995), one of the most accomplished masters in the domain of inequalities. Inequalities are to be found everywhere and play an important

and significant role in almost all subjects of mathematics as well as in other areas of sciences. Professor Mitrinovic used to say: 'There are no equalities, even in human life inequalities are always encountered.'

This volume provides an extensive survey of the most current topics in almost all subjects in the field of inequalities, written by 85 outstanding scientists from twenty countries. Some of the papers were presented at the International Memorial Conference dedicated to Professor D.S. Mitrinovic, which was held at the University of Nis, June 20-22, 1996.

*Audience:* This book will be of great

interest to researchers in real, complex and functional analysis, special functions, approximation theory, numerical analysis and computation, and other fields, as well as to graduate students requiring the most up-to-date results.
